This is the SCATTER symbol.

SCATTER symbol appears on all reels.

## TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with new symbols coming from above.

Tumbling will continue until no more winning combinations appear as a result of a tumble.

All wins are added to the player's balance after all of the tumbles resulted from a base spin have been played.

## RANDOM WILD MULTIPLIER FEATURE

Whenever a cluster of symbols hit and explodes it can randomly leave behind a WILD symbol, in a random empty spot.

This is the WILD symbol and substitutes for all symbol except for SCATTER.

Whenever a WILD generated by a winning cluster first appears, it contains a multiplier of 2x that applies to the win of future clusters that it is part of.

When the WILD is part of a winning cluster, after explosion, it can randomly appear again or not, and if it comes back it now carries a 4x, 8x, 16x, 32x, 64x, 128x, 256x multiplier, progressively for each subsequent time it appears.

If more than one WILD symbols are part of the same winning cluster their multipliers add together before multiplying the win of that cluster.

If the same WILDS are part of more than one cluster, their multipliers apply to the win of all clusters that they are part of.

## FREE SPINS

Hit 3 or more SCATTER symbols to trigger the FREE SPINS FEATURE.

7 SCATTER - awards 25 free spins

6 SCATTER - awards 20 free spins

5 SCATTER - awards 15 free spins

4 SCATTER - awards 12 free spins

3 SCATTER - awards 10 free spins

During the FREE SPINS round the RANDOM WILD MULTIPLIER feature is active.

However, in the FREE SPINS ROUND whenever a WILD first appears from a winning cluster it carries a 3x multiplier and on subsequent appearances it grows to 9x, 27x, 81x, 243x and 729x, progressively.

Hit 3 or more SCATTER symbols during the round to retrigger 5 more free spins.

Special reels are in play during the feature.

## MAX WIN

The maximum win amount is limited to 5,000x bet in both base game and free spin. If the total win of a FREE SPINS ROUND reaches 5,000x bet the round immediately ends, win is awarded and all remaining free spins are forfeited.

High volatility games pay out less often on average but the chance to hit big wins in a short time span is higher.

Only the highest win is paid per winning combination.

When winning with multiple blocks all wins are added to the total win.

Free spins and bonus wins are added to the payline win.

All wins are multiplied by base bet.

All values are expressed as actual wins in coins.

Free spins win is awarded to the player after the round completes.

Free spins total win in the history contains the whole win of the cycle.

SPACE and ENTER buttons on the keyboard can be used to start and stop the spin.

The theoretical RTP of this game is 94.46%

MINIMUM BET: £0.20  
MAXIMUM BET: £100.00

Malfunction voids all pays and plays.

## HOW TO PLAY

Click the  or  buttons to change the bet value and open the bet menu.  
Select the bet you want to use in the game.

## MAIN GAME INTERFACE

 opens the SETTINGS menu that contains settings which affect the way the game is being played.

 opens the Information page

CREDIT and BET labels show the current balance and current total bet.  
Click on the labels to switch between coins view and cash view.

and  change up or down the current bet and open the bet menu, where you can change the bet denominations.

 starts the game

 opens the automatic play menu

## SETTINGS MENU

INTRO SCREEN – toggles the introductory screen on and off
